We Don't Believe in Summer Vacations!

The summer months have traditionally been a slow time for the numismatic marketplace; outdoor recreation seemed always to take precedence over "indoor" hobbies. But we want you to be aware that the Summer of '78 is witnessing a unique surge of activity in the industry. And not only is New England more than ready to handle this increased volume of transactions, we're actually leading the way with some special innovations and offers of our own.

We've recently installed a more sophisticated computer system to keep track of our expanding inventory and to process your want lists with the greatest possible degree of efficiency. We'll also be able to keep accurate records of the appreciation rates of various coins and series. We've added additional personnel to our sales department in order to maintain the high level of personal attention that we consistently devote to our clients, and to our advertising department, so that we may improve the quality and frequency of our publications (watch for our upcoming New Purchases mailers).

To get back to those special offers: take a careful look at the Silver Dollar section of this mailer. This outstanding group of dollars comprises specimens from the collection of one of the country's leading numismatists. If you look at the listing closely, you'll notice that essentially every date and mint mark of Morgan and Peace Dollars has been included, almost all in exceptionally superb condition, and some the finest we've ever seen. Even though Silver Dollars seem to be the most over-publicized item in today's numismatic market, collectors and investors should remember that Dollars have always demonstrated a steady growth rate. At this time especially, we feel that the proposed new mini-dollar and the possible release of the Carson City Dollars will undoubtedly spur interest in Silver Dollars to an even greater degree.

This is going to be an exciting summer for numismatics. New England is part of the excitement, and we want you to be, too. So look over this offering carefully; if you don't find exactly the coins you need for your collection or investment portfolio, give us a call and we'll place those items on your want list. We'd be glad to help with any of your collecting or investing needs. Don't miss out on the Summer of '78!

This Ad Answers Two Important Questions.

Question 1. Why invest in rare coins?

Very simply, because a demonstrated growth rate of 59% per year for the last five years on a representative portfolio of uncirculated coins is pretty hard to beat in any of the traditional investment media. **And**, this 59% per year appreciation rate is just for the highest mintage "type" coins, as listed in **The Guidebook of United States Coins**, and doesn't include statistics for the better quality, rarer coins.

Current uncertain economic conditions are driving many investors to seek more secure, lucrative alternatives to the stock market and commodities exchanges, and many professional financial advisors are finding that rare coins are an extremely attractive alternative. Rare coins are "the number one hedge against inflation," according to Franz Pick (BARRON'S). D. Reginald Tibbetts of AMERICAN COLLECTOR believes that "coins, especially rare coins, generally outperform other types of investments and a collector has the tangible joys of gathering and admiring a coin collection. Coins do well in recessions and inflationary periods." Max Liebler of Shearson Hayden Stone, writing in COMMODITIES magazine noted that, "in many instances, investing in good rare coins has been found to have a greater profit return potential than investing in gold bars or modern issue gold coins."

Largely in response to the pervasive disillusionment with the future of stocks and bonds, the coin market is presently experiencing one of the most incredible booms in its history. As more and more investors enter the market, the market gets stronger and stronger — and this trend is, we feel, likely to continue for quite some time.

With the decline of the dollar on the international market, and erratic economic conditions at home, think about the precarious behavior of your stock market investments. And consider how the 6% yearly inflation rate is affecting your savings account. It's no wonder that a 59% per year appreciation rate has made rare coins one of the most popular alternative investment media.

AN INCREDIBLE 46% PER YEAR!*

If you had invested in gold bullion in 1967, you would have experienced a 41% per year return on your money. But, did you know that according to the "Redbook" guide to U.S. coins, the appreciation pattern of a gold type set has **surpassed** that of gold bullion by 5% per year! Even with the phenomenal increase in bullion levels (from \$35 to \$180 per ounce over this time period) gold type sets have still been a better buy!

12 Piece Gold Type Set (highest mintage dates, Uncirculated-60 coins)

We have always felt that gold type sets are a **very** lucrative investment — and for a number of solid reasons. When it comes time to sell, a complete set will usually generate more interest from the collector market. This is because assembling a set piece by piece takes a great deal of time, and in many cases the quality and appearance of the individual coins tend to vary widely if they come from different sources. Therefore, when a properly selected, attractive set is offered, it is an exciting collector find, and usually brings a high premium.

Gold has a rich numismatic history that began with its use as a monetary currency as early as the 4th century B.C. Gold has, in fact, become almost synonymous with "money" — with solid buying power. With

today's fiat U.S. dollar no longer backed by gold, people are increasingly attracted to the metal for its longstanding intrinsic value. This tendency to opt for tangible items with historically established value always becomes more pronounced during periods of economic uncertainty, such as we are presently experiencing. And gold is always at the top of the list of investment commodities during such times.

Because investors are so familiar with gold's intrinsic value (perhaps from trading experience in gold options and contracts), they are much more likely to be attracted to gold pieces when their investments diversify into a rare coin portfolio. It only follows, then, that gold type sets are an attractive medium for these people, especially as they've demonstrated a 46% per year appreciation rate!

Another important factor that contributes to the investment potential of the gold type set is that the majority of the included coins are relatively inexpensive to acquire. This situation enables you to purchase coins which will always have a broader range of buyers than prohibitively expensive items. Obviously, there are more collectors and investors in a financial position to buy a \$200 coin than a \$2000 coin.

Finally, a gold type set represents a highly desirable, **diversified**, package. A complete set contains a specimen of every design type and denomination, from the \$1 gold piece to the \$20 Double Eagle. (Even further, though, we recommend that coins of other metals be purchased in addition to the gold type set if you are buying coins for investment purposes.)

A complete gold type set, then, offers:

- at 46% per year, a higher past rate of appreciation than gold bullion,
- the appeal of a complete, uniform set,
- the psychological and historical power of gold,
- ingrained investor familiarity with the metal,
- tendency of gold to do well in times of recession, and
- diversification of investment.

It's a hard package to beat!

As with any coin purchased from New England Rare Coin Galleries, the authenticity of these gold type sets is completely guaranteed and, equally as important, our **grading** is unequivocally guaranteed. We will repurchase directly, or sell through auction, any coin purchased from us at the **same** grade you bought it as. Our reputation for grading accuracy and consistency is unparalleled — and we stand proudly behind our reputation.

U.S. MINT COIN DIES

New England Rare Coin Galleries is proud to offer to our customers this once-in-a-lifetime numismatic opportunity. For the first time ever, you have the chance to own an invaluable treasure — the actual dies used in the minting of United States coinage, mounted in a specially designed unit. New England Rare Coin Galleries is the *only* firm from whom you can purchase these dies, as we bought all that the U.S. Government released to public ownership. Once our supply is exhausted, there will be no more dies on the market (the government now has stringent controls to preclude the release of any more dies from the mint). They are, however, completely legal to own as they were defaced at the mint.

These dies were used in the striking of the 1968 Proof sets, the first set ever *not* issued from the Philadelphia Mint, and the first to bear the mint-mark of the newly reactivated San Francisco branch.

We are offering these dies set in a specially designed unit which holds the removable coin die, a descriptive plaque (detailing the history of the die), and a 1968 Proof coin of the denomination produced by that particular die. All these elements are set into a stand of American Maple wood with a walnut finish. Each of these units is totally unique, as each plaque bears the engraved serial number of the coin die in the unit.

New England Rare Coin Galleries is offering this remarkable collector's item at a price that is incredibly low when one considers that there is only a small, finite supply available. Never again will you have this opportunity.

The dies are available either mounted as a complete unit (including descriptive plaque and Proof coin) for \$39.95, or by themselves for \$29.95. Denomination is our choice, but we will try to accommodate your preferences. Offer limited to no more than three (3) dies per customer. Please include \$1.95 for handling and shipping; allow 6-8 weeks for delivery.

Of course, we will not send out any alternate selections unless your first choices have already been sold. If you are ordering for a type set, please list "type coin" as your alternate choice so if your first choice is not available, we can fill your order with another coin of the same type in equal or higher grade.
